ABOUT ME

My name is Autumn Anglin and I am a graphic designer, artist, author and beekeeper. I am great at taking a concept and making it a reality. I define myself as creative, self-motivated, ambitious, loyal and have excellent time management skills, which means I work hard and drink lots of coffee. At the heart of my designs are my values in social justice issues and I am inspired to make a difference and build trusting relationships. I am always adding to my skill set and practicing what I know. Learning is a lifetime pursuit and the passion that drives my life, work, and hobbies.
